

THE GRAND CARAVAN FAMILY

JUST GOT ONE STRONGER

Cessna's Grand Caravan is known as a highly reliable workhorse – delivering exceptional performance with low operating costs. No wonder it's the world's favorite multi-purpose hauler for business and pleasure.

Cessna's Grand Caravan

Cessna's Grand Caravan key features include:

- Low cost of operations
- Enhanced situational awareness and safety with Garmin G1000 avionics
- Exceptional useful load capabilities
- Highly reliable with wide mission capability

Should your mission require you to climb faster, get you there quicker, and/or necessitate a shorter take-off distance, then the EX is for you.

Cessna's Grand Caravan EX

- Rate of climb increased by 32% to 1,220 FT/MIN
- Take off distance reduced by 10% to 2,260 FT @ 50 FT
- Cruise speed increased by 7% to 184 KT @ 10,000 FT (with pod)

Additional features include:

- Prist fuel additive is no longer required, increasing your ease of operation
- Optional float installation on a Grand Caravan
- LED lights that provide greater illumination while lowering your operating costs

The Grand Caravan EX, with its engine upgrade, adds even more brawn to the Caravan family.
